COMPANY SNAPSHOT

# Four decades on the factory floor

A founder-built manufacturer that grew alongside Egypt's automotive supply chain — from a single sheet-metal workshop into a certified, multi-plant OEM feeder.

## Company Overview

**Location:** 6th of October City, 4th Industrial Zone, Egypt

**Total area:** 12,000 m² (6,800 m² utilized)

**Core processes:** Stamping, Welding, Assembling, Plastic Painting (post-injection)

CERTIFICATIONS

IATF 16949

ISO 9001

ISO 14001

ISO 45001

BIQS

MILESTONES

### 1987

Founded as part of MB Group, specializing in sheet metal forming.

Initially located on the Cairo–Alexandria Agricultural Road.

### 1998

Relocated to 6th of October City, close to car manufacturers.

Introduced a new sector: painting exterior plastic parts.

### 2020

Expanded production capacity to meet rising market demand.

Implemented advanced manufacturing technologies for higher efficiency.

### 2025

Focus on global expansion and export growth.

Diversification into multiple sectors within the automotive feeding industry.

CORE CAPABILITIES

# Process capability at a glance

PR-01

### Stamping

Up to 1,000 tons pressing capacity.

PR-02

### Welding

Spot / $CO_2$ / Laser / Argon welding.

PR-03

### Tooling

In-house die design & manufacturing, with outsourcing to European and Asian suppliers.

PR-04

### Painting

Plastic parts coating after injection.

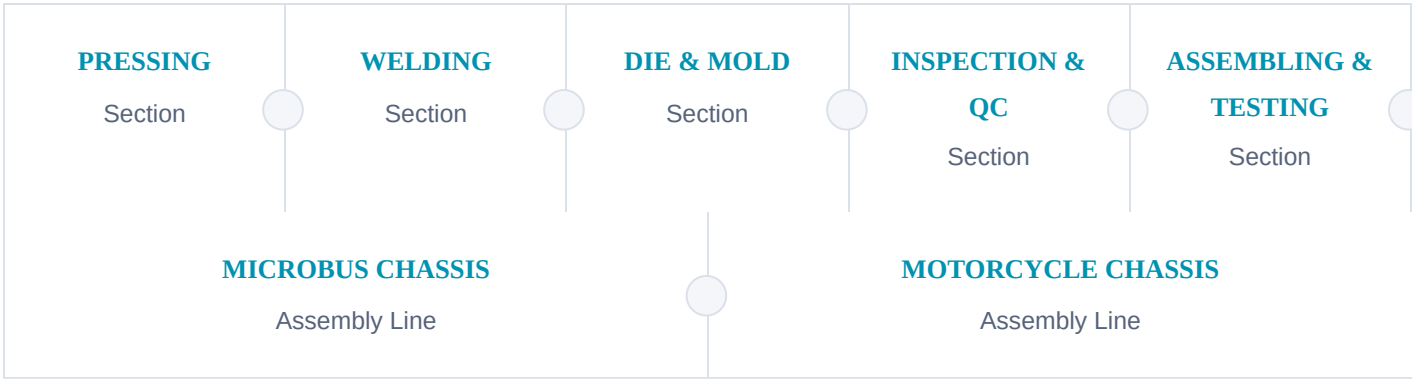

PRODUCT PORTFOLIO

# One line, five product families

From structural chassis members to painted exterior trim, FIMCO covers the metal-to-plastic value chain for a finished vehicle body.

- 01 Body Parts
- 02 Structural Components
- 03 Brackets & Supports
- 04 Heat Shields
- 05 Plastic Exterior Parts

METAL FORMING PLANT — PRODUCT FAMILIES

### STRUCTURAL COMPONENTS

- Microbus chassis assembly
- Motorcycle chassis assembly
- Dashboard metal cross beam
- Cross member & ZB tagger

### EXTERIOR BODY PARTS

- Fenders, hoods, doors, roofs, trunks
- Rear and front floors

### PROTECTION & SHIELDS

- Shield protective muffler
- Heat protective shield
- Engine protector
- Bumper metal impact beams

### BRAKING & SUSPENSION

- Disc brake lining metal support
- Spring & shock absorber supporting brackets

### FUEL & COOLING SYSTEM

- Fuel tank and radiator covers

### AIR CONDITIONING PARTS

- AC hairpin end plate
- AC right side panel

### CONTROL & SUPPORT

- Accelerator, clutch & brake pedals
- Hood support rod

PLASTIC PAINTING PLANT — PRODUCTS

## Automotive Plastic Parts

- Rear & front bumpers
- Door molding set
- Side mirrors
- Door handle set
- Fuel tank cover
- Trunk handle
- Front radiator grill
- Rocker panel set

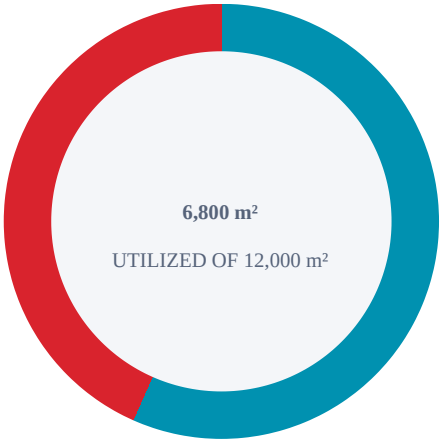

## Household Appliance Plastic Parts

- Cooker & fridge handles/knobs
- Washing machine parts
- Vacuum cleaner parts

FACILITY & LAYOUT

# 12,000 m² — room to grow

Just over half of the site is currently built out; the remainder is reserved for warehousing and production-line expansion.

- Utilized — Metal Factory, Office, Paint Factory, Storage
- Not utilized — 5,200 m² expansion reserve

## CURRENT SITE LAYOUT

| | | |
|---|---|---|
| Main Entrance | Parking & Security Control | Admin Building |
| Paint Plant | Technical Building | Metal Forming Plant 1 |
| Raw Material & Final Product Warehouse | Metal Forming & Body Parts — Extension Plant 2 | Expanding Area |

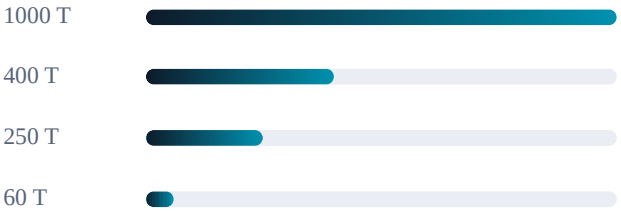

2026 build-out in progress: Plant A (Metal Forming 1) and Plant B (Metal Forming 2, incl. Chassis ASM welding & weld lab) flanking a new 342 m² electrostatic painting line, Plant C (Plastic Painting), a 1st-stage warehouse and an expanded admin building.

EQUIPMENT & MACHINERY

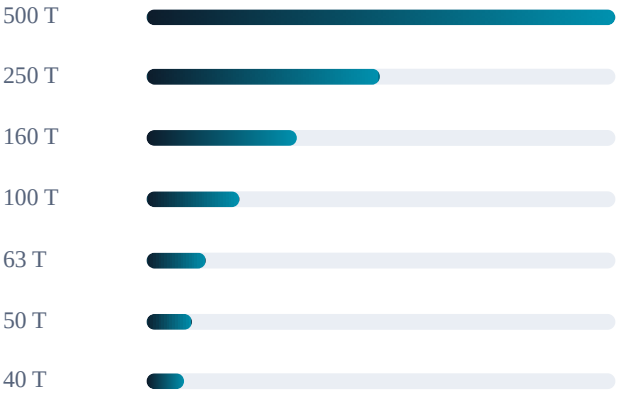

# The machine floor

## PRESS MACHINES

**Hydraulic Press** — 60 – 1,000 TON

**Eccentric Press** — 40 – 500 TON

WELDING, MACHINING & CUTTING

### Welding Machines

- $CO_2$ welding
- Fixed spot welding
- Movable spot welding
- Laser welding
- Argon welding

### Machining & Cutting

- CNC laser cut machine
- Lathe machine
- Milling machine
- Shaping machine
- CNC wire cut machine
- Sheet metal shear

### Facilities

- Dedicated press area
- Die store area
- CNC machine room

BENDING, DRILLING & FINISHING

### Bending & Rolling

- CNC tube bending
- CN tube bending

### Drilling Machines

- Vertical drilling machine
- Semi-milling drill machine

### Grinding & Polishing

- Surface grinder
- Cutting disc
- Grinding disc

PLASTIC PAINTING PLANT

# Six stages, one finish

01

**Paint Preparation & Mixing**

Color matching and material readiness ahead of coating.

02

**Liquid Paint & Baking**

Application followed by controlled thermal curing.

03

**Pneumatic & Mechanical Assembly**

Fitting hardware and mechanical components onto painted parts.

04

**Testing, Inspection & Quality Control**

Dimensional and finish checks against OEM specification.

05

**Polishing & Final Quality Check**

Surface refinement and final sign-off.

06

**Packaging & Delivery**

Protective packing and dispatch to the customer.

VISUAL PORTFOLIO

# Inside the plant & the parts

A closer look at finished painted components, structural stampings, and the press, welding and paint lines that produce them.

## PAINTED PLASTIC PARTS

**Painted Exterior Set**

Front/rear bumpers · mirror caps · handle covers · rocker trim

**Finished Parts — Studio Shot**

Colour-matched set, door body panel included

**Paint Line — Overhead Conveyor**

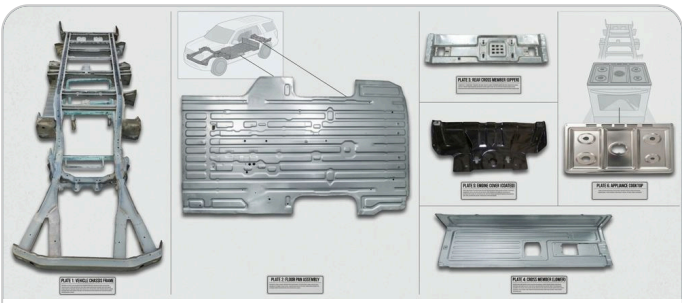

Parts wrapped and staged after coating

## METAL & STRUCTURAL PARTS

**Chassis & Floor Pan Set**

Frame, floor pans, rear cross member, engine cover

**Reference Plates 1–6**

Chassis frame · floor pan · cross members · cooktop

## PRODUCTION FLOOR

**Press Shop Floor**

Eccentric press line, dedicated work stations

**Hydraulic Press — YCT-400**

Operator loading a stamped panel

**Hydraulic Press — YCT-400**

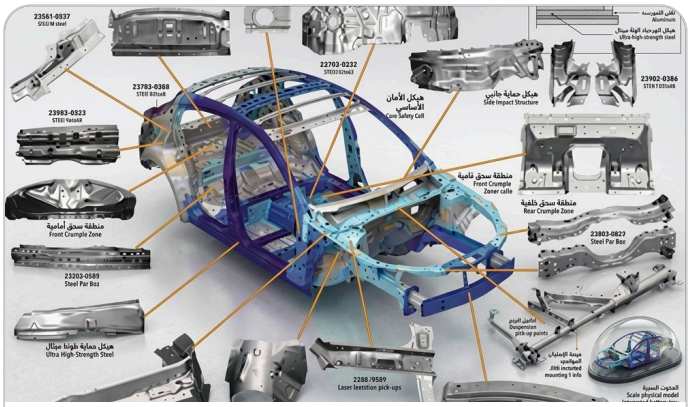

In-process panel forming

**Body-in-White Assembly Line**

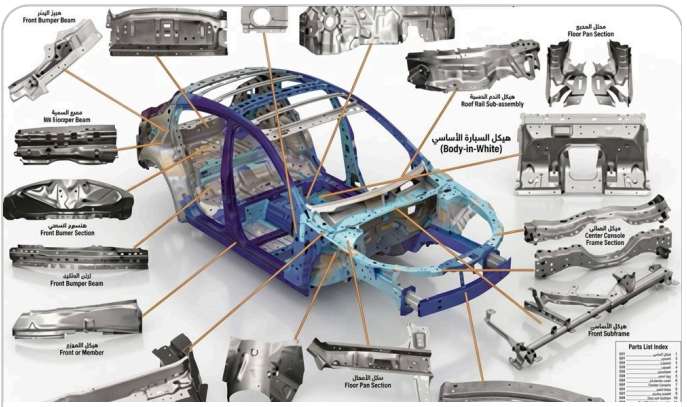

Automated welding station

## BODY-IN-WHITE REFERENCE

**Core Safety Cell — Structural Map**

Crumple zones, side-impact structure, steel grades

**Body-in-White — Section Breakdown**

Bumper beams, roof rails, floor pan sections

**Plant Overview — Illustrated**

Body-in-white station, colour-coded utility runs

CUSTOMERS

# Trusted by global brands

FIMCO supplies certified components directly into the production lines of the following OEMs and appliance manufacturers, across three continents.

**26+**
Partner brands

**3 continents**
Asia, Europe & the Americas

**Since 1987**
Continuous OEM manufacturing

**IATF 16949**
Certified automotive supply chain

## AUTOMOTIVE OEMS

20 brands

- GM
- TOYOTA
- SUZUKI
- LADA
- BMW
- HYUNDAI
- NISSAN
- CHERY
- CHEVROLET
- CITROËN
- DONGFENG
- MG
- GOLDEN DRAGON
- KING LONG
- FOTON
- JETOUR
- CHANGAN
- TVS
- ZEMEX
- BAJAJ

## HOME APPLIANCE BRANDS

6 brands

- HAIER
- ELECTROLUX
- MIDEA
- TOSHIBA
- BEKO
- CARRIER
